Junior Full-Stack Developer (MEA | RN)

Summary

I'm a web developer passionate about building web apps. I have graduated with a strong academic background. Right now, I'm working on improving my skills to become an experienced web developer. I'm currently looking for a software development opportunity that will allow me to work alongside an expert team of developers. Thereby helping to drive my career progression to more senior roles in the future.

Education

- **Full Stack Web Development using MER/AN Stack Track** (Apr 2022 – Jun 2022)
Information Technology Institute (ITI)
Intensive Training Program (ITP)
- **Bachelor's degree, Statistics, and Computer science** (2018 –2021)
Mansoura University
 - Grade: Good (73%)
 - Graduation Project: Integration between Artificial intelligence and Internet of Things.
 - Project Grade: Distinct (86%).

Licenses & Certifications

- **React Development Cross-Skilling Nanodegree Program** (Udacity)
- **Professional Front-End Web Development Nanodegree Program** (Udacity)
- **TypeScript Fundamentals** Information Technology Institute (ITI)
- **Modern JavaScript: ES6 and beyond** Information Technology Institute (ITI)
- **Database Fundamentals** Information Technology Institute (ITI)

Skills

Technical Skills

- React.js
- Redux & RTK
- Next.js
- Node.js
- Express.js
- Mongo DB & Mongoose
- JavaScript & TypeScript
- HTML5 & CSS3 & SASS
- Tailwind CSS & Bootstrap
- Git

Personal Skills

- Forward-thinking.
- Focused.
- Good Decision Maker
- Team Worker
- Communication skills
- Presentation skills
- Problem-solving skills

Outstanding Projects

- **Meals App**
 - Built a web application by using React hooks.
 - Evaluated logic which adds meals to the cart and calculates the total amount of your meal's prices.
 - [Show project \(github.com\)](#)
- **Bookshelf App**
 - Developed a web application using React.js
 - Added routes between two pages search and main.
 - Fetch data from the backend server and redirect it to certain positions for the user.
 - [Show project \(github.com\)](#)

- **Sudoku App**

- Evaluated logic which to play sudoku on 4x4 and 9x9 board and the test solution.
- Used TypeScript and Bootstrap.
- [Show project \(github.com\)](#)

- **Drag and Drop Cart**

- Developed logic which makes products draggable to shop cart and calculate total amount and price for checkout.
- [Show project \(github.com\)](#)

Honors & Awards

The 2020 ICPC Mansoura Collegiate Programming Contest

- Supervise 3 team members in solving programming problems.
- Reached a rank of 13th of 33 teams in the competition.
